

Food Mart: A Data Storytelling Report

Uncovering Growth, Regional Dominance, and Strategic Opportunities Behind the Numbers

TOTAL REVENUE

\$1,764,546

TOTAL COST

\$711,728

NET PROFIT

\$1,052,819

TOTAL RETURNS

7,087

Chapter 1: The Big Financial Picture

In retail analytics, numbers tell a narrative of commercial operational health. Food Mart's dashboard reveals a robust period, generating **\$1,764,546** in total revenue while maintaining operating costs at **\$711,728**.

This translates to a impressive net profit of **\$1,052,819**—achieving an outstanding profit margin of approximately **59.7%**. This indicates strong pricing power and effective cost control. However, beneath this high-level triumph lies a nuanced story across regions and demographics.

Chapter 2: The Regional Divide & Geographic Footprint

Analyzing performance by sales regions reveals a distinct contrast in revenue distribution:

Sales Region	Sales Count / Volume	Total Profit (\$)	Strategic Role
North West	847,827	\$505,783	Dominant Market Leader (~48% of total profit)
Mexico Central	330,362	\$197,073	Strong Secondary Contributor
South West	320,805	\$191,437	Solid Core Market
Canada West	107,674	\$64,341	Moderate Performance
Mexico South & West	148,554	\$88,615	Developing Market
Central West	9,325	\$5,570	Severely Underperforming Territory

Store Country Insights: The **United States (USA)** drives the vast majority of transaction volume with 180,823 store transactions, followed by **Mexico** (72,806), and **Canada** (16,091).

Chapter 3: Product Dynamics & Basket Diversification

Rather than relying on a single flagship item, product sales are evenly distributed across top-performing SKUs, indicating healthy category diversity and well-rounded customer baskets:

- **Top Demand Tier (13 units each):** *Monarch Rice Medly* and *Dollar Monthly Sports Magazine*.
- **Secondary Demand Tier (12 units each):** *Hermanos Red Pepper*, *Atomic Tasty Candy Bar*, *Tell Tale Cauliflower*, and *Red Wing Silver Cleaner*.
- **Steady Performers (11 units each):** *Blue Medal Egg Substitute*, *Even Better Large Curd Cottage Cheese*, *Horatio Corn Chips*, and *Hilltop Silky Smooth Hair Conditioner*.

Chapter 4: Customer Demographics & Loyalty Realities

A deeper look at customer profiles highlights key demographic and behavioral trends:

- **Geographic Base:** The customer count is led by the USA (7,359 customers), followed by Canada (1,717), and Mexico (1,205).
- **Gender Split:** Virtually equal distribution between Female (5,184 / 50.4%) and Male (5,097 / 49.6%) buyers.
- **Loyalty Membership Gap:** The vast majority of customers hold a **Bronze Card** (5,703 members). Standard **Normal Card** holders stand at 2,420, while premium tiers like **Golden** (1,198) and **Silver** (960) remain underutilized.
- **Education Profile:** Dominated by Partial High School (3,094), High School Degree (3,039), and Bachelor's Degree (2,619) holders.

Chapter 5: Strategic Action Plan & Next Steps

- **Double Down on North West & US Expansion:** Capitalize on the region generating nearly half of all profits by enhancing store inventory and localized marketing.
- **Tier Upgrade Campaign (Loyalty Program):** Design incentive campaigns aimed at transitioning Bronze cardholders to Silver and Golden tiers to increase average order values.
- **Investigate Product Returns:** Address the 7,087 product returns by auditing quality assurance and logistics to prevent revenue leakage and preserve brand trust.
- **Turnaround or Reallocate in Central West:** Conduct an operational audit of the Central West territory (only \$5.5k profit) to either revamp marketing or reallocate resources to higher-margin markets.
